Sacred Geometry of Creation in the Physical Form

Let's start at the beginning and see the Sacred Geometry of Creation of Human Life Form ~ in the Womb. Let's go to cell division and birth on Planet Earth, then that of the Stars.

This is exactly how all energy of creation expands, from inside the body to the corners of the Universe.

Ok let's go deeper & bridge what we know:

One perfectly round cell turns into two intersecting cells called the Vesica Pisces ~ the geometry that begins all Sacred Geometry shapes

In the embryo, when the cells get to 8, those 8 cells actually remain at the bottom of our spine for the duration of your life ~ this is the Kundalini life force energy.

While scientifically we know the rest of our cells completely regenerate every 5-7 years, depending on the cycle you are on (corresponding to Astrology Cycles)

The 8 cells stay there forever, that is 8, infinity, immortality... and the Kundalini life force energy.

We are RIGHT NOW in 2024, an 8 number year, regenerating every cell inside the body with the Yuga Cycles Shifting from Kali Yuga to Satya Yuga – Dark Age to Golden Age

And this is happening in full divine synchronistic alignment.

And as we vibrate new frequency through to every part of our being, we are in the fullness of Light, occupying space in light within our physical body AND also our auric sphere.

We began a new level of work on our Auric field during our Yuga Shift Astral Travel to house the new frequency coming in and the knowledge we can utilize in the field our hearts produce. Let's begin to use this field!

*We are the ones we have been waiting for.
Crown on, Armor of Light of Light on, on Mission, on Purpose!*

*. Let's do this.
